ME

I am a Sound Engineer and a Digital Media professional, with a deep love for music. My objective is to be a functional and productive part of the digital revolution that has been happening in this area in the last years. And that will go on in the future, I believe, to put music back to where it belongs - the everyday life of all of us

EXPERIENCE

Oct 2009 - present

Carosello Records, Milano - http://www.carosellorecords.com/
